BOARD OF ALDERMEN.

IMPORTANT MATTERS CONSIDER 2D BY THIS BRANCH LAST NIGHT.

The Board of Aldermen, the upper branch of the City Council, met in the Council chamber last night at 7 o'clock in regular monthly session. Present at roll-call: Messrs. Bass (presideut), Bland, Chappell, Crenshaw, Davis, Dickerson, Hargrove, Hill, Noble, Ot-

Mr. Hargrove, from the Committee on Fire-Alarm and Police Telegraph, sub-mitted the following report:

Gentlemen,-The Committee on Fire-Alarm and Police Telegraph have considered a resolution referred to them by you July 11, 1887, concerning the confusion caused by sounding the fire-alarms on different bells at the same time. This question received our careful consideration some months ously shooting Percy Lockwood with a pistol, with intent to kill.

From the evidence it appeared that Sunday afternoon a number of boys who were engaged in "a rock battle" on the trouble—namely, the purchase and erection of one large bell, to be centrally located, from which all alarms trally located, from which all alarms would be sounded. In order to carry on the Capitol Square, in the old bell-house. On December 13, 1886, the resolution came up for concurrence in the resolution by the concurrence in the resolution as adopted by the Capitol Barbard Ba Common Council, we recommend that

SCHOOL APPROPRIATION. A resolution from the Common Council authorizing the City School Board to pay from its annual appropriation 2630.45 for extra work on Marshall and West-End schools was concurred in.

The resolution authorizing the Committee on Grounds and Buildings to rent out the refreshment privileges at the New-reservoir grounds, provided that no malt liquors be permitted to be sold, which was adopted at the last meeting of the Common Council, was concurred in.

From the Common Council came the amendment proposed to chapter 19 of the City Ordinances, which, in effeet, provides that merchants doing business on Sixth street between Pink alley and Broad street shall enjoy the same privileges as regards the exposure and sale of their goods on the side-walk that the hucksters have, provided that these privileges shall not be leased to any one.

An amendment was proposed and

adopted allowing merchants whose stores front on Broad street to sell likewise on the Sixth-street side. Hill thought the merchants should have as much right to subreut this as any other privilege.

Other members thought differently.

The ordinance was adopted.

should have a buggy.

Mr. Davis had always favored this proposition, but he was under the impression that the increase of this of-ficer's salary was urged and made with the understanding that the extra \$300 would be used to buy a horse and bug-gy. He had been informed that both Dr. Stratton and the committee accept-ed the increase of pay in him of this ed the increase of pay in lieu of this

appropriation.

Mr. Snead replied that Mr. Davis had been misinformed, and again urged that the appropriation be made, and in so doing he bestowed upon Dr. Strat-ten the highest encomiums.

Mr. Dickerson said he had never

seen a more efficient and energetic president of the Board of Health than Dr. Stratton has made. He has abated nuisances and examined into all complaints and remedied them, where well grounded, more promptly than any of his predecessors. He could not, how-ever, vote for this appropriation. He was opposed to the city buying a borse and buggy for the head of any department. The city had al-ready experienced trouble because of her owning teams for officials. He was sorry to vote against any measure in which Dr. Stratton was interested, but he could not endorse this one. He would much more willingly vote for an increase of salary at the commencement of the next year.

Mr. Otley opposed the proposition. He thought Dr. Stratton was making a Clerk August read a paper from City
Attorney C. V. Meredith, asking to be excused from rendering his opinion on certain matters referred to him relative to the tying up of streets until a suit now pending in the City Circuit Court, involving somewhat the same questions, is decided. On motion, the paper was recommitted and Mr. Meredith allowed to communicate with the Court.

Mr. December 2. Stratton was making a most efficient officer, but he was probably doing more than required, and read from the city ordinances to support his position. When the resolution for increase of salary was pending members of the Finance Committee had explained that no horse and buggy would be asked for if the increase were made. He noved to so amend as to provide for the purchase of a buggy. Mr. Page asked whether the city or Dr. Stratton would bear the expense of

keeping the horse.
Mr. Snead replied that it would have to be borne by the city, as it will be the

Mr. Hill to a large extent concurred in what had been said by Mr. Dickerson, but hoped this measure would be concurred in, as the health of the city in a measure depended upon it.

Mr. Otley wanted to know whether Committee or an independent proposition introduced at the meeting of the

Common Council.

Mr. Snead replied that the committee recommended the appropriation.

The subject was further discussed at first-class street-light.

Mr. Otley's amendment was rejected. Mr. Page then moved to amend by providing that the expense of keeping the team be borne by Dr. Stratton.

There are already over 150 subscribers, and this number, it is estimated, will pay the running expenses of the system, which will be conducted on principles of economy.
